

MSc Proclamation

"Rehabilitation following Spinal Cord lesions. Spinal Pain Management"

Academic Year 2026-2027

The Medical School of the National and Kapodistrian University of Athens organizes & operates for the academic year 2026-2027 (F.E.K.: 889/07-02-24 Second Issue, Decision No.: 63 & F.E.K.: 74/17-01-25 Second Issue, Corrections) the Master's Program (M.S.) **"REHABILITATION FOLLOWING SPINAL CORD LESIONS. SPINAL PAIN MANAGEMENT"**, lasting for two years, and leading to the awarding of a Postgraduate Diploma (M.Sc.). The administrative support of MSc is practiced by the School of Medicine of the N.K.U.A.

The Master's Program courses will start at the end of **September 2026**. The program includes four (4) academic semesters. In particular, the first three semesters include theoretical and laboratory courses and the fourth semester is dedicated to the preparation of a diploma thesis and clinical practice.

What does MSc offer

- Postgraduate Diploma on "Rehabilitation following Spinal Cord lesions. Spinal Pain Management").
- Ability to produce high-level research papers that can be published in English-language scientific journals.
- Award of an excellence scholarship subject to available financial resources.
- Laboratory-practical courses of a fixed number during the study semesters.
- Continuous scientific information on Spinal Cord Injuries and Spinal pain management from our website: posting of seminars, workshops organized by the MSc annually, relevant conferences, etc.

Obligations of postgraduate students MSc

- Observance of excused absences at a rate of 15% of the total teaching hours of the program applies to all postgraduate students. Attendance is taken at the beginning of the lesson and during breaks.
- Mandatory physical presence of all MSc students. in the laboratory-clinical courses and in the exams of each semester of the MSC studies.
- Compliance with the financial obligations per semester of studies is a necessary condition for participating at the exams of each semester, as well as for the completion of their studies
- Elaboration of a diploma thesis. Choosing a topic up to the 3rd semester of studies and preparing it within one to three semesters after the end of the 3rd semester. The topic of the thesis must be relevant to the courses of the program, may be either an original research or a literature review. In the case of literature review, it is pointed out that, its publication in a foreign language International or Greek scientific journal, before receiving the degree, is mandatory. As far as the Greek journal is concerned, it should be included in international scientific database such as Scopus, Web of Science and Google scholar. However, its publication in an international journal counts, positively towards the grading of the thesis with the maximum score

Candidates accepted to the Study Program include graduates of the Department of Medicine and other departments of a related subject (Departments of the Faculty of Health Sciences, Biology, Physiotherapy, Occupational Therapy, Psychology, Sociology) and related Departments of the country or Departments of recognized foreign institutions are admitted to the Master's Program, as well as graduates. E.I. related cognitive object.

Registration at the PMS implies a contribution for each student to the relevant operating costs, which amounts 1.500 Euros per year of study (**750 Euros per semester** of study). Total: 3.000 Euros for the duration of the four (4) semesters. Tuition is paid at the beginning of each semester in one (1) installment. Once the fees have been paid, they are non-refundable.

Those interested should complete and submit the **application together with the necessary supporting documents**, as described below from **11/05/2026** to **14/08/2026**, at the e-mail address electronically: scl@med.uoa.gr.

Information on the Website: <http://scl.med.uoa.gr/> or <http://school.med.uoa.gr/>

Necessary Documents:

1. Application for Participation in the MSc (special form posted on the website of the MSc),
2. CV,
3. Photocopy of two sides of the police ID,
4. Copy of Diploma or Certificate of completion of studies,
5. Detailed rating of undergraduate courses,
6. Copy of Certificate of English Language Proficiency, minimum level B2, or sufficient certified by S.E. of the MSc, knowledge of the candidate's English language (if more than one certificate has been obtained, attach only one),
7. Letters of Recommendation,
8. Copies of Scientific Publications in peer-reviewed journals (*if available*),
9. Copies of Evidence of professional or research activity (*if available*),
10. Certificate of Greek proficiency or sufficient knowledge of the Greek language, verified by the Coordination Committee of the MSc, for foreign candidates who wish to participate in the MSc. That is organized in the Greek language,
11. Copy of Master's degree & relevant analytical score (*if available*).
